SUMMARY

Looking for opportunities to learn, grow, and contribute to innovative projects. I want to work in a dynamic environment where I can improve my skills, collaborate with others, and create meaningful solutions. My goal is to stay updated with new technologies and take on challenges that help me develop both personally and professionally.

EDUCATION

Sri Vasavi Engineering College , Tadepalligudem   **Nov 2022-Present**
- Btech in Computer Science , CGPA : 8.91/10

Bharatiya Vidya Bhavans , Tadepalligudem   **2020-2022**
- 12th , Percentage : 94.2

Bharatiya Vidya Bhavans , Tadepalligudem   **2019-2020**
- 10th , Percentage : 90.2

PROJECTS

Student Permission Connect   **July 2024 - Oct 2024**
- This project is done to develop a permission management system for students to submit and get the permission from the Head of the department . This project is developed using MERN technologies.

Attendance Alert System   **Sept 2023**
- This project monitors attendance records and automatically generates email notifications if an individual's attendance falls below a predefined threshold. It helps in proactively managing attendance issues by alerting the concerned individuals and stakeholders to take corrective actions.

Nutrition Planner   **Aug 2024**
- Developed a Nutrition and Diet Planner using Gradio, CrewAI, and LangChain to provide personalized diet plans and nutritional data through API integration and AI-driven tools.

Basic Quiz App   **Mar 2025**
- A dynamic web-based quiz platform developed using React, Node.js, and MongoDB. It enables admins to create quizzes with unique codes and allows participants to join and attempt them in real-time. The application supports multiple active quizzes, real-time score calculation, and a seamless user experience.

SKILLS
